## KAYAKS

Following on from the well received inflatable kayaks last year Seago have added a new model to the range, the Toronto. The Vancouver and Quebec have been redesigned with all of the latest features of the Toronto. The kayak tubes are made from high grade 1100 Decitex reinforced fabric with plastic coating. The fabric is tough enough to gain class IV white water rating. The dual layer drop stitched floor allows for high pressure inflation giving rigidity. Seago inflatable kayaks perform like a hard moulded kayak.

	Quebec	Vancouver	Toronto
Capacity	1	2	3
Weight	12kg	15.8kg	20kg
