## SO THAT LIFE IS ONLY PLEASURE...

The **INCASA STORY** began with a passion for freedom and a desire for well-being. We want to ensure that you can experience the outdoors fully and have the best time spent away or on a campsite.

Our aim is to for you to make **EVERY MOMENT OF PLEASURE WITHOUT CONSTRAINTS** and with all the necessary equipment to enjoy comfortably.

To meet this challenge, our designers continuously study and understand the difficulties of outdoor life: limited space, difficulties in connecting to 220 volts and water, climatic hazards... To name but a few .

### **UNDERSTANDING, OBSERVING AND ANALYZING THESE CONSTRAINTS**

has been the the daily work for the Research & Development department of the **INCASA** brand to design innovative products.

**THEIR ONLY OBJECTIVE: TO MAKE SHORT AND LONG STAYS REAL MOMENTS OF PLEASURE AND RELAXATION.**

Once you've packed all your accessories, all you have to do is enjoy your staycation!

**The INCASA product portfolio meets every daily need:  
cooking ,sharing meals with the family, sleeping  
comfortably and cleaning your living space.**

# OUR COMMITMENTS

## KNOW-HOW AND QUALITY OF MATERIALS

### COMPACT PRODUCTS

The design of each product has been thought out in order to provide a solution for use in both nomadic and sedentary life.

**For motorhome and van drivers as well as campers, the number one constraint is space available in their vehicles** or tents to hold all the equipment needed for a weekend or for a longer period.

INCASA products are specifically designed to take that constraint into account.

Mug

Saucepan

Espresso machine

Hoover

Popote

Outdoor accessories must be both durable and easy to maintain, to make every journey pleasant and to simplify everyday life. INCASA tableware will always arrive in one piece, whatever the journey!

Each of the materials in the INCASA range is rigorously selected for its specific qualities: Melamine, resistant and non-slip, Tritan®, reusable and unbreakable, stainless steel, better fire resistance and corrosion resistant are just some examples.

## WHY MELAMINE?

The melamine resin composition makes the tableware very durable and resistant to the effects of daily use. Indeed, its non-porous texture is resistant to stains. It also allows for quick and easy cleaning. It gives a modern and shiny appearance for beautiful and elegant table settings.

Anti Slip

Heat resistant

BPA-free

Odourless

Supports the freezer

Recyclable

Resistant

## WHY TRITAN®?

Tritan® is a strong, transparent amorphous thermoplastic that is free of harmful chemicals such as BPA and plasticizers. It has no plastic odour that could affect the taste.

It makes the glass light, strong and impact resistant. This material is also highly resistant to dishwashers and chemicals.

Finally, it complies with the most stringent food standards.

0% bisphenol A

# RESPECT FOR THE ENVIRONMENT

**Behind INCASA, there are nature lovers who wish to minimize their environmental impact.**

This is achieved by designing products that are sustainable over time and by carefully selecting raw materials. By ensuring quality products, we are able to meet our commitment to sustainability.

**To go further,**

**WE HAVE CREATED THE  
NATURE ADDICT RANGE  
which guarantees:**

- Choice of recyclable or recycled materials,
- Products can be dismantled and recycled at the end of their life,
- Minimised recyclable or recycled packaging.

- Mugs en acier émaillé
- Enamelled steel mugs
- Tazas de acero esmaltado
- Tazze in acciaio smaltato
- Becher aus emailliertem Stahl
- Geëmailleerde stalen mokken

Nature Addict

- Lit tout fait 2 en 1 - **Plein-dormir**
- Ready-made 2 in 1 - Ready to sleep in bed
- Schnell gemacht Bett 2 in 1 - Für den Bettwäscher
- Cama hecha 2 en 1 - Lista de dormir
- Letto già fatto 2 in 1 - Pronti per dormire
- Kavel-en-louze 2 in 1 - Klaar om in bed te slapen

## Compact products

Each product has been designed to provide a solution adapted to the nomadic or sedentary life. We have optimized the size of all INCASA products because the number one constraint of motorhome, caravan, panel van owners or simply campers is available space in their vehicles or tents to carry all necessities for staycations or longer holidays.

## Casseroles & Saucepans

Made of high quality silicone, ultra compact and foldable and up to a height of only 5 centimetres.

Silicone is naturally non-stick, so it cleans up quickly and easily. And because silicone bowls don't need to be greased, you can use less fat in your food.

### Quality materials

Outdoor accessories must be both durable and easy to clean, to make every trip enjoyable and to simplify the daily routine. INCASA tableware will always arrive in one piece, whatever the journey !

### WHY POLYCARBONATE?

The most important property of polycarbonate is its high impact resistance as it is 250 times stronger than glass. Coloured products will retain their beautiful colours as polycarbonate has a high UV resistance. Also fully transparent giving you the same drinking experience as glass.

## Quality materials

Outdoor accessories should be durable and easy to clean, to make every trip enjoyable and to simplify everyday life. INCASA tableware will always arrive in one piece, whatever the journey! Whether you want to refresh yourself after a long walk, drink a glass of wine or celebrate a special event with your champagne flutes, the Tritan collection offers the right glass for every occasion!

## WHY TRITAN®?

Tritan® is a strong, transparent amorphous thermoplastic that is free of harmful chemicals such as BPA and plasticizers.

It is free of plastic odours that could affect the taste. It gives the glasses lightness, strength and resistance to shocks. The material is also highly resistant to dishwashers and chemicals.

Finally, it complies with the most stringent food standards.

## A real modern kitchen

If you don't want to waste time waiting for the water to boil, or just want to cook some old-fashioned recipes, the induction hob is the perfect solution. Incasa has specially designed this induction hob to bring modernity to the interior of recreational vehicles.

## Electric induction hob

It offers the most precise and efficient cooking system capable of heating large volumes of water extremely quickly, but also of providing an extremely low temperature for simmering. The induction hob thus offers great cooking flexibility, suitable for all types of kitchens.

## Responsible products

Behind each Incasa product there are, above all, nature lovers. To further their commitment, they have designed responsible products that respect the environment, without forgetting to make them 100% suitable for outdoor life!

## Why enamel?

Enamel is a material that is fully recyclable and often recycled. Its durability makes it much more environmentally friendly than many other materials. In addition, its composition does not produce toxic emissions during its recovery.

In addition to its undeniable qualities, enamelled tableware has a vintage charm and an aesthetic character.

## Essential and compact products

Bucket, basin, wastebasket, dustbin are essential for the maintenance of a vehicle or a mobile home, but they take up a lot of space! INCASA offers you the solution with a complete collection of retractable and compact products to equip you just like at home !

## Hanging Bin, Folding Bin & Bin Bag Holder

The hanging waste bin is compact and attractive, can be placed on the floor or fixed to a wall or door. The wide handle makes it easy to empty contents. Easy to install with the supplied assembly kit. Available in two capacities and two colours.

The folding bin is compact and easy to transport. Can be assembled very quickly. Fixing brackets allow the use of separate bags for recycling. Anti-drip tank integrated in the base. Anchor point for securing the bin to the ground.

The bin liner holder clips onto a door. Suitable for all types of doors with a maximum thickness of 15 mm. With integrated lid.

## Essential

If you can't use your hair dryer or hair straightener from home, which are designed to operate on 220 volts, you can opt for a travel hair dryer or straightener iron that plugs directly into the cigarette lighter socket. This way, you can straighten, brush and add volume to your hair even when you are on the move!

## Hair dryer & hair straightener

Ideal for use in recreational vehicles. Compact design with foldable handle for optimal storage. Ergonomic handle for easy use.

## Cold and hot

A cooler is essential for storing food and drinks during picnics or camping holidays.

## Coolers

A thermoelectric cooler operates on either direct (12V) or alternating current (230V).

Of course it cools but it has an additional option, it can heat. Thanks to the Peltier effect (the ability to produce cold or heat by reversing polarity), this type of cooler can cool but also keep its contents warm up to 65°.

## Product information

## The essential item to have on hand

Incasa offers a wide range of gas stoves to suit everyone's needs. Single, duo or trio models, all formats are available depending on the number of guests.

No more dependence on an electrical energy source, the gas stove is the essential cooking utensil to heat water and prepare healthy meals.

### Gas stoves

These are the most commonly used outdoor stoves. They are reliable and easy to use. They require little maintenance, the flame setting is precise and the heating time is fast. Some models even have built-in cartridges for minimal space requirements.
